Assembly Behavior

- Monday: When we are at an assembly it is not polite to talk while the person in front is talking.
- Tuesday Talking between speakers causes problems. It makes it hard for a speaker to start if the audience is talking.
- Wednesday Unless there is an emergency there is no reason to leave an assembly.
- Thursday: Most assemblies last no more than 20-30 minutes. Please sit quietly while the assembly is in progress.
- Friday: When an assembly is over it is not a time to get loud and start to move around.
